

Classroom Participation in the COVID-19 Journal Project

The Wisconsin Historical Society COVID-19 Journal Project is hoping to include as many voices as possible. Including those of students, teachers and parents.

We have been contacted by many teachers hoping to participate in the project with their students. This is amazing and we look forward to your participation. To help with the donation process we have designed a special donation form for parents and students. [Link to Student Journal Waiver]

Classroom donations can happen one of two ways

1. Teachers can collect the journals and signed student waivers from their students and submit them as a group.
2. Teachers can share the student waiver with their students and parents, and have parents submit the journals as they see fit.
