Relevant Economic Standards for Grades 6-8

	Check Your Sources (WHM) Check Your (WHM) Digging Deeper (WHM) Workshop* (WHM)
	SS.Econ1: Wisconsin students use economic reasoning to understand issues.
	SS.Econ1.a.m: Predict the opportunity costs of various decisions and explain why the opportunity cost might differ from person to person or in different situations. Assess how limited resources (money, land, natural resources, workers, time) impact the choices of individuals, households, communities, businesses, and countries.
	*
	SS.Econ1.b.m: Evaluate how incentives impact individual and/or household decision making.
	CC Comp. Wisconsin students will another bound sistence are made and interesting account made in dividuals have shalled and
	SS.Econ2: Wisconsin students will analyze how decisions are made and interactions occur among individuals, households, and firms/businesses (Microeconomics).
	SS.Econ2.a.m Analyze the role of consumers and producers in product markets. Provide examples of how individuals and households are both consumers and producers.
	SS.Econ2.b.m: Investigate the relationship between supply and demand. Evaluate the extent to which competition exists in product
	markets, and its relationship to price and quality of goods and services.
40	markets, and its relationship to price and quality of goods and services.
Economics	SS.Econ2.c.m: Categorize factors of production and how they are combined to make goods and deliver services. Evaluate how profits influence sellers in markets.
\subseteq	*
	SS.Econ3: Wisconsin students will analyze how an economy functions as a whole (Macroeconomics).
9	SS.Econ3.a.m: Analyze how inflation, deflation, and unemployment affect different groups.
	*
8	SS.Econ3.b.m: Differentiate between the functions of money (i.e., medium of exchange, store of value, unit of account). *
	SS.Econ3.c.m: Define Gross Domestic Product (GDP), and compare the GDP of different nations.
	*
	SS.Econ4: Wisconsin students will evaluate government decisions and their impact on individuals, businesses, markets, and resources.
	SS.Econ4.a.m Compare and contrast how different economic systems (traditional, command, market, mixed) choose to allocate the production, distribution, and consumption of resources (what, how, for whom is it produced).
	SS.Econ4.b.m: Compare and contrast the role of different economic institutions such as banks, labor unions, non-profits, and businesses in an economy. Analyze rules and laws that protect and support both consumers (e.g., private property, zoning, contracts, agreements, and product safety) and workers (e.g., labor unions, regulations, minimum wage).
	CC Food a my Anglyza the impact of different government noticing (e.g., toyotion and government anonding) on the connert
	SS.Econ4.c.m: Analyze the impact of different government policies (e.g., taxation and government spending) on the economy.
	SS.Econ4.d.m: Analyze potential unintended costs and benefits (i.e., externalities) for a local or state law or policy.
	SS.Econ4.e.m: Summarize the role of specialization on trade and cost of goods/services. Identify examples of U.S. exports and imports.
	* which is a summarize the role of specialization on trade and cost of goods/services, identity examples of 0.5, exports and imports.
